PROFESSIONAL EXPERIENCE

Front End Developer Volunteer, Lead Team | Remote

Feb 2022 – Jul 2022

Hack for LA

- Worked on redesign of main navigation bar to make it more user-friendly using Liquid to dynamically get data.
- Implemented HTML/CSS design system audit of classes to standardize all the cards across the entire website.
- Reviewed and merged over 30 pull requests to ensure code quality, consistency, and best practices.
- Increased team productivity and efficiency of PR workflow by updating and contributing to site documentation.

Front End Developer Intern | Remote

Sept 2020 – Apr 2021

Our National Conversation (ONC)

- Translated 30+ Figma designs into interactive features and pages of [a new website](#) using React, Node, and CSS.
- Reduced development time by creating 10 reusable components such as filters, search bars, and data cards.
- Resolved merge conflict issues by collaborating with a team of 10 developers using Git for version control.
- Standardized title tags of all the pages of the website by using the React Helmet document head manager.

ESL Instructor | El Cajon, CA

Jan 2016 – Dec 2022

Grossmont College

- Developed a [resource site](#) for students and teachers shared with over 50 ESL instructors on Canvas using HTML, CSS, and JavaScript.
- Customized over 500 lesson plans based on learning objectives using learner-focused materials and resources.
- Evaluated the performance of over 400 students promptly and accurately based on departmental policies.
- Led 25+ language learners per class through final projects by providing actionable feedback and mentorship.

APPLICATIONS

Jisun Kim Official Website | Front End Developer | [Live Site](#) | [GitHub](#)

A CMS-based website for client's modeling work | *React, React Hooks, Sanity CMS, React Router, CSS*

- Built a responsive and mobile-friendly client website using React and Sanity CMS with 100% client satisfaction.
- Optimized design for 12 screen sizes (desktop & mobile) using Flexbox, media queries, and Responsively App.

The Shoppies | Front End Developer | [Live App](#) | [GitHub](#)

A movie nomination application | *React, React Hooks, OMDB API, CSS Modules, Flexbox*

- Improved search performance by 90% by debouncing API calls to reduce the number of API requests made.
- Created a workflow using GitHub Actions to automate E2E testing to ensure that the application flow functions properly and as expected.
